Report of Superintendent of Schools

To the Superintending School Committee and Citizens of the
Town of Moscow:

I take pleasure in presenting the annual report on the condition of our schools.

Due to a greatly increased enrollment at the Washington school last fall, it was found necessary to equip the small room formerly used as a reading and cloak room, for a second school room. It was planned so that the three lower grades should have a separate teacher and Miss Alice Owens, a graduate of Wheelock Kindergarten school was secured for the position. The national standing of this school insures the best training possible in lower grade work and Miss Owens is doing her work very well. The third grade has seats around a large table provided by the Central Maine Power Co., while the two lowest grades have their regular desks in the main room, only going into Miss Owens' room when their classes come. This room is rather small and is heated by a stove. We recommend for discussion and decision at the annual town meeting whether or not it is feasible to enlarge this building to meet present or provide for possible future requirements.

Mrs. Marion Kenney, a teacher of experience and a partial normal course, has very acceptably filled the vacancy at the Roosevelt school, while Mrs. Kathleen Hilton and Miss Weeks have continued doing their fine work at the Lincoln and Washington schools respectively. We feel that our children are under the instruction of very skillful teachers and that they are doing work that children in the same grades in other towns are doing. In fact, we know that our children when moving to other towns are, after making the adjustments always necessary in getting acquainted with new conditions, able to go on with their work satisfactorily.

Quite a bit of repairing was done at the Lincoln school during the summer. The interior was redecorated and new blackboards were installed. These were a much needed improvement and are appreciated by the children and teacher. This school has achieved something noteworthy during this past year. Mrs. Hilton, with the assistance of money left by two preceding teachers, and the children earned enough money to have the teeth of every child in the school attended to, be-

sides having a fine primary table made, purchasing six primary chairs, providing the children with current events magazines, besides some minor school room fixtures. The teacher and pupils at the Roosevelt school have purchased the same papers for their classes, made several improvements in equipment in their room and have a cash balance now.

We have thirteen students in Bingham high school and one in Lewiston, some of whom are doing very good work and most of whom are grading. It might be well to again call to your attention that two-thirds of all money expended by the town for high school tuition is refunded to the town by the state. The enrollment in our town schools is much larger than it has been for years.

We shall need a much larger appropriation for schools for the coming year since we shall lose the census money that has been received for the past two years from the state due to the children in Daggettsville. The board and conveyance bills will be much more for the coming year due to the increasing number of children having to be cared for from Deadwater.

In closing, I wish to thank the superintending school committee for their loyalty, also the children and teachers for their co-operation, the town officials for their unfailing courtesy and other citizens for their efforts and support in making this a pleasurable and, I believe, profitable school year.

Respectfully submitted,

HOWARD L. BOWEN,

Superintendent of Schools

Preserve This Report

A sufficient number of these reports have been printed to furnish every interested citizen with a copy. An effort has been made to get them into the hands of the voters in advance. It should be borne in mind that if copies are left at home there may not be a sufficient number at the hall to go around on town meeting day. This year or any year it is desirable for you to have a copy of the annual report as soon as issued. It is also important for you to preserve it and bring it with you town meeting day morning.
